THE TRANSFORMATION

NEXT STEPS

APPENDIX

INTRODUCTION

OUR RECOMMENDATION

DIRECT TO CONSUMER, DIRECT TO EVERYONE.

Evolve Nike's Consumer Direct Offense into a balanced, data-driven **hybrid model** that restores **wholesale partnerships** while deepening **digital connections**, redefining speed, access, and community across every touchpoint.

FROM A LOCAL TRACK TO GLOBAL DOMINANCE

Founded in 1964 as *Blue Ribbon Sports*; became *Nike, Inc.* in 1971.

PRE-CDO STRATEGY

Nike's Wholesale Model

Historically, Nike's wholesale model enabled tremendous growth with over **30,000 retail partners** globally. While this approach offered a broad reach and established relationships, it also resulted in significant limitations. These included a lack of control over product presentation, pricing, and consumer experience, ultimately restricting Nike's agility and innovation capacity.

THE CORE PROBLEM

CDO OVERVIEW

Here's what Nike did to change the DTC problem....

Nike's direct-to-consumer model:
Is it cutting out
the middleman?

Consumer Direct Offense

Wholesale → direct consumer engagement

Why? Enforce Nike ecosystem and promote loyalty

How? Nike-owned stores & digital platforms

CDO OVERVIEW - HOW?

1.

Expanded Nike.com, SNKRS, and flagship “House of Innovation” and “Nike Live” stores.

2.

Used **data analytics** (via Zodiac and Celect) to forecast demand and personalize offers.

3.

Cut off low-value retailers (Amazon, Macy’s) to elevate brand perception.

4.

Grew the **NikePlus ecosystem** to 160M members who spent 3× more than non-members.

5.

Built a **faster supply chain** using local hubs and automation to cut delivery times and costs.

SWOT ANALYSIS

STRENGTHS

- Global brand power
- Full control of brand experience
- Data-driven personalization (Zodiac & Celect)

WEAKNESSES

- High inventory & logistics costs
- Lost retail visibility
- Margin decline (46% → 43.5%)

OPPORTUNITIES

- Rebuild select wholesale ties
- Use AI to optimize demand
- Expand “phygital” store experiences

THREATS

- Growing competition
- Slower consumer demand
- Rising costs & operational strain

OVER-RELIANCE ON DTC

DSW
DESIGNER SHOE WAREHOUSE®

WHY IT BECAME A PROBLEM

Reduced Consumer Choice

Lost Visibility

Higher Cost

Inventory Build-Up

Weakened Consumer Discovery

Competitor Visibility

Net Income Dropped

Gross Margins Fell

CONSEQUENCES

PRE-CDO vs. CDO

72%

Wholesale's
Revenue Share

42%

Nike's Direct
Revenue Share

PRE-CDO

Distribution Access

- ✓ Buy Nike **anywhere**
- ✓ **Retailers own** the relationship
- ✓ Focus on **volume** & **visibility**
- ✓ Broad reach, low margins

CDO

Consumer Relationship

- ✓ Experience Nike **directly**
- ✓ Nike **controls brand experience**
- ✓ Focus on **loyalty** & **experience**
- ✓ Narrower reach, higher margins

NEXT STEPS

PHASE 1: SWOOSH-BACK

Reignite selective wholesale relationships while maintaining Nike's premium DTC power.

1

Swoosh Zones

Establish partnerships with select **premium retailers** (Dick's Sporting Goods, DSW, Foot Locker, etc.) and advertise the resurgence of Nike products by putting them **on display**

2

"Just Do It Together"

Campaign **celebrating teamwork** between Nike and its retail partners by **sponsoring community events** (run clubs, yoga classes, etc.) to publicize return to wholesale

PHASE 2: SMART-SWOOSH

Use AI, AR, and design intelligence to personalize experiences and scale sustainable growth.

1

AR Integration

1. **Try-umph** : AR fitting mirror in Swoosh Zones where customers can try on new Nike releases
2. **Swoosh Scan** : Users find hidden Swooshes in cities to unlock exclusive rewards on the Nike app

2

Re-Swoosh Centers

Nike's branded **return and recycling hubs** inside wholesale stores where customers can seamlessly **drop off worn or unwanted gear**

PHASE 3: SWOOSH-SPHERE

Fully integrate digital, physical, and community experiences into one connected ecosystem.

1

Nike Passport

Unified digital ID available on the Nike app that connects every shopper's purchases and workouts **across Nike's ecosystem** into rewards, access, and community experiences.

2

Nike Brain

Internal dashboard trained off purchasing trends from hybrid streams to best **forecast** inventory, financials, consumer spending

STAKEHOLDER ANALYSIS

Nike's CDO deepened consumer ties but strained partners and efficiency.

- Internal Drivers
- Strategic Partners
- Market Connectors
- Financial Influencers

PROS & CONS

PREDOMINANTLY WHOLESALE

Pros:

- ✓ Lower operational costs
- ✓ Shelf presence
- ✓ Wider market reach

Cons:

- ✓ Loss of brand control
- ✓ Margin compression
- ✓ Brand dilution

PREDOMINANTLY DTC (DIGITAL)

Pros:

- ✓ Full brand control
- ✓ Higher gross margins
- ✓ Premium brand optics

Cons:

- ✓ High operating costs
- ✓ Limited market reach
- ✓ Margin volatility

BALANCED HYBRID

Pros:

- ✓ “Phygital” experience
- ✓ Balanced margins
- ✓ Data synergies

Cons:

- ✓ Complex logistics
- ✓ Channel conflict risks
- ✓ Similar to competitors

FINANCIAL ANALYSIS

	PHASE 1: SWOOSH-BACK	PHASE 2: SMART-SWOOSH	PHASE 3: SWOOSH-SPHERE
Time Horizon	0 - 12 months	12 - 24 months	24 - 36 months
Total Cost	\$1.5 B	\$1.5 B	\$1.8 B
Wholesale / D2C	60% Wholesale / 40% D2C	55% Wholesale / 45% D2C	50% Wholesale / 50% D2C
Revenue Growth	5.0%	8.0%	10.0%
Gross Margins	45.0%	45.0%	48.0%

RISKS & MITIGATIONS

RISK: Coordinating logistics

MITIGANTS:

1. Dashboards for monitoring
2. Effective communication

RISK: Margin compression

MITIGANTS:

1. Data-driven analysis
2. Optimized SKU mix

RISK: Brand dilution

MITIGANTS:

1. Strategic retail presence
2. Store-in-store standards

COMPETITOR ANALYSIS

What did others do?

- **59% wholesale / 41% DTC** revenue mix (2023)
- Maintains brand presence through **broad retail access** while expanding digital

*Balanced mix keeps **reach broad** and **sales steady***

- **76% wholesale / 24% DTC** revenue mix (2023)
- Leverages **retail partnerships** for scale and visibility, while gradually growing DTC

*Hybrid model with stronger wholesale focus drives **scale** and **adaptability***

THANK YOU

FINANCIAL PROJECTIONS

(USD billions)

		Swoosh-Back	Smart-Swoosh	Swoosh-Sphere
	FY 2024	FY 2025	FY 2026	FY 2027
Nike Brand Revenue	49.322	51.788	55.931	61.524
YoY Revenue Growth		5.0%	8.0%	10.0%
Wholesale Revenue	27.758	31.073	30.762	30.762
Wholesale as % of Revenue	56.3%	60.0%	55.0%	50.0%
D2C Revenue	21.519	20.715	25.169	30.762
D2C as % of Revenue	43.6%	40.0%	45.0%	50.0%
Global Brand Divisions	0.45	0.45	0.45	0.45
Converse Revenue	2.082	2.594	2.767	3.002
Corporate	(0.42)	(0.42)	(0.42)	(0.42)
Nike Revenue	51.392	53.962	58.279	64.106
YoY Revenue Growth		5.0%	8.0%	10.0%
Cost of Goods Sold	28.475	29.679	32.053	33.335
Gross Profit	22.887	24.283	26.225	30.771
Gross Margin	44.53%	45.0%	45.0%	48.0%

Key Assumptions

YoY Revenue Growth :

Assumed to continue growing each year (5% → 8% → 10%)

Wholesale/D2C : After a push back into wholesalers, this segment should grow in year 1 but consumers should transition to D2C as they seek rewards in following years

Gross Margin : Attempt to maintain as best until Nike Brain roll-out to help optimize internal spending

FINANCIAL PROJECTIONS

(USD billions)

100% D2C (Digital)

	FY 2024	FY 2025	FY 2026	FY 2027
Nike Brand Revenue	49.322	46.856	43.107	38.797
YoY Revenue Growth		(5.0%)	(8.0%)	(10.0%)
Wholesale Revenue	27.758	23.428	19.398	15.519
Wholesale as % of Reve	56.3%	50.0%	45.0%	40.0%
D2C Revenue	21.519	23.428	23.709	23.278
D2C as % of Revenue	43.6%	50.0%	55.0%	60.0%
Global Brand Divisions	0.45	0.45	0.45	0.45
Converse Revenue	2.082	2.387	2.229	2.048
Corporate	(0.42)	(0.42)	(0.42)	(0.42)
Nike Revenue	51.392	48.822	44.917	40.425
YoY Revenue Growth		(5.0%)	(8.0%)	(10.0%)
Cost of Goods Sold	28.475	24.411	21.560	18.191
Gross Profit	22.887	24.411	23.357	22.234
Gross Margin	44.53%	50.0%	52.0%	55.0%

Key Assumptions

YoY Revenue Growth :
Assumed to decrease as
wholesale segment wanes off

Wholesale/D2C : Consistent
linear annual growth as D2C
grows at the cost of wholesale

Gross Margin : Improve
significantly as Nike becomes
a less physical brand; online
presence allows for data
collection and analysis that
allows for further refinement

FINANCIAL PROJECTIONS

(USD billions)

100% Wholesale

	FY 2024	FY 2025	FY 2026	FY 2027
Nike Brand Revenue	49.322	47.842	45.450	42.723
YoY Revenue Growth		(3.0%)	(5.0%)	(6.0%)
Wholesale Revenue	27.758	28.705	29.543	28.625
Wholesale as % of Reve	56.3%	60.0%	65.0%	67.0%
D2C Revenue	21.519	19.137	15.908	14.099
D2C as % of Revenue	43.6%	40.0%	35.0%	33.0%
Global Brand Divisions	0.45	0.45	0.45	0.45
Converse Revenue	2.082	2.428	2.328	2.213
Corporate	(0.42)	(0.42)	(0.42)	(0.42)
Nike Revenue	51.392	49.850	47.358	44.516
YoY Revenue Growth		(3.0%)	(5.0%)	(6.0%)
Cost of Goods Sold	28.475	29.910	29.362	28.936
Gross Profit	22.887	19.940	17.996	15.581
Gross Margin	44.53%	40.0%	38.0%	35.0%

Key Assumptions

YoY Revenue Growth :

Assumed to decrease as D2C segment wanes off but less so than before since wholesale is a larger portion of sales

Wholesale/D2C : Wholesale grows at the cost of D2C, but difficult to exceed 65% as consumers continue preferring online sales

Gross Margin : Worsen as physical presence is priority

CDO Overview

Consumer Direct Offense

Triple Double Strategy: 2× Innovation, 2× Speed, 2× Direct

Digital Acquisitions: Zodiac (predictive analytics), Select (inventory optimization), and Datalogue (data integration)

Nike App, SNKRS, Run Club, and Training Club built loyalty across 160M members who spent ~3× more than non-members

Supply Chain Transformation: Shift to omni-channel fulfillment and robotics (Geek+) tripled digital order capacity

Outcome: Nike Direct grew from 28% (2017) → 44% (2023) of total revenue, but margins fell (46% → 43.5%) due to inventory strain and complexity

SHIPPING LOGISTICS

Nike also introduced click-and-collect from store and ship-from-store to home to fulfil orders from locations closer to the consumers. 71 According to Matt Friend, Chief Financial Officer,

The benefits for us in that are in gross margin. It's more full-price realisation. It's lower cost to fulfil. And frankly, it's better for the environment because it's less shipping and it's less moving stuff around

Geek+, a smart logistics provider, to deploy robots in its warehouses. The robots carried ordered products directly to workers, enhancing picking efficiency, reducing operational costs, and alleviating physically demanding tasks for employees, allowing them to focus on higher-value activities instead. = 2022= tripling Nike's digital order capacity and overcoming the industry wide labour shortages and high wages.
